

vice and consent. Generally, the State's review and approval process of proposed projects requires a minimum of one year before the grant or loan is made available to the requesting agency. Disbursement of loan or grant funds, following approval by the Boating and Waterways Commission, involves preparation of contracts, staff review of engineering drawings and specifications, review of payment requests and on-site confirmation of construction progress.

GRANTS

The launching facility development program provides grants for the construction of launching lanes,

restrooms, boarding floats, shore protection, car-and-trailer parking, utilities, landscaping and irrigation, and ancillary items. The amount of funds provided is determined by the usage and benefits that can be economically justified. The grant applicant agency is required to own or control the project area and to operate and maintain the facilities for 20 years at no cost to the State. Grants are also available to public agencies for floating restrooms and vessel pumpout facilities.

Grants made during this biennium totaled \$27,234,000 for 40 boat launching facility projects.
